Re: Chemical Right-to-Know HPV Challenge Program Submission

Dear Ms. Whitman:

The Propylene Carbonate/t-Butyl Alcohol HPV Committee is in receipt of the August 26, 2002 comments from the US Environmental Protection Agency on the test plan and robust summaries for propylene carbonate (CAS RN 108-32-7). The test plan and robust summaries were submitted to the Agency on April 10, 2002 according to the Committee's voluntary commitment under the HPV Challenge Program, AR-201. The Committee appreciates the Agency's review and will address the comments in revising the robust summaries and in our final assessment report.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Robert J. Fensterheim
Executive Director
